

Theme 6: Transport and Movement

A fully-connected community

You have told us that you want an area that is safe and easy to walk in and around, and that you want to see an improvement in transport connections to High Road West. You have also shown support for the idea of having a new White Hart Lane Station.

In the future the High Road West community could be well-connected, with new safe routes for pedestrians and cyclists and better public transport accessibility. A new White Hart Lane Station would provide a welcoming gateway to the area with a new station forecourt.

Key principles of change

- High Road West could be fully connected into the rest of Tottenham, with new streets making it easier to get from east to west and from north to south
- Traffic speeds in the area could be reduced by new traffic-calming measures, such as widening roads and introducing on-street parking
- Cycling could be encouraged through new cycle routes and safe cycle storage
- Bus stops could be improved by integrating into the high quality public realm
- Haringey Council will continue to seek improved public transport
- Car Parks that are well-lit and safe will provide residents' parking, as well as on-street parking
- Parking for the commercial and leisure businesses and their customers will be provided in a dedicated modern multi-storey car park
