

## Tottenham Hale High quality new homes

Every part of London is under pressure to deliver more homes and employment. In February 2015 Haringey Council's Housing Zone bid won backing from the Mayor of London.

In Tottenham Hale approximately 2000 new quality homes will be built with a mix of tenures; private and affordable rent, affordable and shared home ownership and general sale.

Alongside the new homes will come almost £45million of investment to unlock sites for development and create a modern district centre, with fantastic transport links, new bridge access to the beautiful Lee Valley Regional Park, new public spaces, shops and restaurants, and new employment opportunities.
